Commitments & KPIs

# Respect for our environment

## Our Commitments

*We'll reduce waste and put it to positive use in our business, and invest £10 million to help customers reduce their waste through our Waste less, Save more initiative.*

*We'll reduce our operational carbon emissions by 30% absolute and 65% relative (to 2005).*

*Through robust water stewardship we'll ensure that our business manages all areas of water vulnerability.*

# Respect for our environment

## Waste

### Commitment:

*We'll reduce waste and put it to positive use in our business, and invest £10 million to help customers reduce their waste through our Waste less, Save more initiative.*

| What we'll do  | How we'll measure it  |
|--|---|
| <b>1.</b> We'll support the delivery of the Courtauld 2025 target to reduce food & drink waste associated with production and consumption of food & drink in the UK. | Measure: By 2025 deliver a 20% per person reduction in food & drink waste associated with production and consumption of food & drink in the UK – initially measured post-farm-gate, and with an interim milestone of 5% per person reduction by 2018<br>New 2015 baseline                         |
| <b>2.</b> We'll work with our colleagues, to reduce all waste and put it to positive use.  | Reduce our DC operational waste by 5% Year on Year<br>New 2015 baseline<br>Measure: achieve 95% recycled construction waste target on all extensions and new stores<br>2015 baseline: awaiting final figure<br>Measure: number of stores with food donation partners<br>2015 baseline: 400 stores |
| <b>3.</b> Through campaigns, programmes and our facilities, we will help our customers reduce their waste and put it to positive use.                                | Measure: JS managed recycling facilities in all available sites by 2020<br>2015 baseline: 200 stores  |

# Respect for our environment

## Carbon

### Commitment:

*We'll reduce our operational carbon emissions by 30% absolute and 65% relative (to 2005).*

| What we'll do  | How we'll measure it  |
|--|---|
| <b>1.</b> We'll continue to introduce proven and next generation renewable technologies in our new and existing stores to reduce our operational carbon emissions. | Measure: absolute YOY carbon reduction emissions<br>2015 baseline: -3.1% year on year<br>Measure: 20% of our core fleet to use an alternative fuel rather than a pure diesel based fuel by 2025<br>2015 baseline: 8%<br>Number of new technologies installed<br>2015 baseline: 17,000 PVs / 97 biomass boilers / 27 ground pumps   renewable heat generation of 100% by 2030. |
| <b>2.</b> We'll reduce the impact of our refrigeration.  | Measure: Number of stores using natural refrigerants<br>2015 baseline: 200 stores   |
| <b>3.</b> We'll help colleagues and customers to do the right thing for the environment at home, and at work, by sharing information and ideas.                    | Measure: Implementation of internal colleague engagement programme across stores (GG)<br>2015 baseline: new metric<br>2015 baseline: New target   |

# Respect for our environment

## Water

### Commitment:

*Through robust water stewardship we'll ensure that our business manages all areas of water vulnerability.*

| What we'll do   | How we'll measure it  |
|---|---|
| <b>1.</b> We'll improve the efficiency of water use in our operations.  | Measure: YOY reduction<br>2015 baseline: 1 billion litres<br>Measure: 35% Absolute reduction in operational water usage across our network (depots and RRU's) against a baseline of 2010/2011<br>2015 baseline: awaiting final figure |
| <b>2.</b> We'll work collaboratively with water companies, NGOs (inc Water Task Force), local authorities and our neighbours to protect river basins and promote integrated water management. | Measure: sharing best practice, communities engaged<br>2015: awaiting final figure  |
